QT-8000

Large, clear touch-screen display and Windows® compatibility for optimum operating ease and versatility

Highlight Features

System configured for today's businesses

With its 1.2GHz CPU and ample memory/hard disk capacity, the QT-8000 is ideally equipped for efficient business operation. Its high-speed 100-base-T Ethernet capability strengthens the communication function and enhances operating friendliness

Dual display capability

A QT-8000 VGA port provides an expansion PC monitor connection for a customer display. This system can display data on both the LCD and the expansion PC monitor separately or simultaneously. The full contents of customer purchases and store advertising, etc., can be displayed on the expansion PC monitor.

Compact, rugged design

A lower profile frees space for other uses. Designed by POS experts for POS professionals, the QT-8000 is suitable for various applications.
